Understanding
The Force-Incapacity-Consent Construct
Overview of the Construct

1. Was force used by the Respondent to engage in the sexual activity?

2. Was the Complainant Incapacitated?
   a) Did the Respondent know OR
   b) Should the Respondent have known that the Complainant was incapacitated?

3. What clear words or actions by the Complainant gave the Respondent indication that the sexual activity was mutually agreed upon?

4. Was the Complainant’s consent withdrawn during the sexual activity?
Consent

- **Words or actions** that show a **knowing** and **voluntary willingness** to engage in a mutually agreed upon sexual activity

- Past consent ≠ Present consent

- The scope of consent matters

- Can be invalidated by: force, intimidation, incapacitation, or withdrawal
Force

• Was force used by the Respondent to engage in the sexual activity?

• Because consent must be voluntary (an act of free will) consent cannot be obtained through use of force

• Types of Force to consider:
  o Physical violence -- hitting, restraint, pushing, kicking, etc.
  o Threats -- anything that gets the other person to do something they wouldn’t ordinarily have done absent the threat
Force Continued

- **Intimidation** - an implied threat that menaces and/or causes reasonable fear

- **Coercion** – the application of an unreasonable amount of pressure for sexual access

  - Consider:
    - Frequency
    - Intensity
    - Duration
    - Isolation
Force Analysis

• Did the Respondent utilize force or intimidation to engage in the sexual activity with the Complainant?
  – If yes = violation of policy
  – If no = Move on with the analysis
Consent and the Role of Alcohol and Drugs
Incapacitation

• Physical and/or mental inability to make informed, rational judgments
  – Could the Complainant make rational, reasonable decisions?
  – Could the Complainant appreciate the situation and address it consciously?

• More than mere intoxication or drunkenness
Determining Incapacitation

• Incapacitation is a determination that will be made after the incident in light of all the facts available.

• Assessing incapacitation is very fact dependent analysis of the incident in question.

• Various forms of incapacity:
  – Alcohol or other drugs
  – Mental/cognitive impairment
  – Injury
  – Sleep
Two-Part Incapacitation Analysis

Part One
• Was the Complainant incapacitated?

Subjective analysis based on the facts surrounding the incident

Part Two
• Did the Respondent know of the Complainant’s incapacity?
  – Or would a Reasonable Person have known?

Objective analysis based on the facts surrounding the incident
Common Factors that Impact the Effect of Alcohol

- Rate of consumption
- Strength of drink
- Food in the stomach
- Body Weight
- Body Type – body fat percentage
- Gender

- Enzymes, hormones, water in body
- Medications
- Illness & dehydration
- Fatigue
- Caffeine
- Genetics
Possible Signs of Incapacitation

• Lack of control over physical movements
  – Ex. Inability to dress or walk without assistance

• Lack of awareness of circumstances or surroundings

• Inability to communicate coherently

• Vomiting

• Total or intermittent unconsciousness
Respondent’s Awareness

• The Respondent [or a Reasonable Person] must have been aware of the Complainant’s incapacity

• The Respondent’s own intoxication does not negate their obligation to comply with policy standards
Incapacitation Analysis

• If the Complainant was not incapacitated, move on to the 3rd question.

• If the Complainant was incapacitated, but:
  – The Respondent did not know it = analysis fails. Move on to the 3rd question.
  – The Respondent should not have known it = analysis fails. Move on to 3rd question.

• If the Complainant was incapacitated, and:
  – The Respondent actually knew it = violation of policy
  – The Respondent should have known it = violation of policy
Consent

What clear words or actions by the Complainant gave the Respondent permission for the specific sexual activity that took place?
Consent Is…

• Informed (knowing)
• Voluntary (freely given)
• Active (not passive)
• Clear words or actions
• Indicates permission to engage in mutually agreed upon (sexual) activity
Rules to Remember

• No means no, but nothing also means no
  Silence and passivity do not equal permission

• To be valid, consent must be given prior to or
  contemporaneously with the sexual activity

• Consent can be withdrawn at any time
Withdrawal

- Remember consent can be withdrawn at any time
- The person withdrawing consent is expected to clearly communicate with words or actions they are withdrawing consent
- Other person is required to cease sexual activity until consent is regained
Evaluation of Evidence and Decision-Making Skills
Effective Questioning

• Questions should be used to determine:
  • Who
  • What
  • When
  • Where
  • How

• Be mindful of how a question could be perceived and develop them with caution
Effective Questioning

What are your goals?
• Learn the facts
• Establish a timeline
• Determine what is more likely than not to have occurred [if possible]

What are NOT your goals?
• Satisfying your curiosity
• Answering every unknown to get the “Truth”
Effective Questioning

• Ask open-ended questions to start the conversation
• LISTEN, ask follow-up questions at the end
• Don’t be afraid of silence
• Don’t be afraid to ask for clarification
• Take breaks if necessary
• Maintain your professionalism at all times
Understanding Evidence

- **Formal rules of evidence do not apply.** If the information is considered *relevant* to prove or disprove a fact at issue, it should *be admitted*. If *credible*, it should be considered.

- Evidence is any kind of information presented with the intent to prove what took place.

- Certain types of evidence may be relevant to the credibility of the witness, but not to the charges.
Understanding Evidence Thresholds

No Evidence  Insufficient Evidence  Preponderance of the Evidence  Clear and Convincing  Beyond a Reasonable Doubt
Types of Evidence

• **Documentary** evidence (supportive writings or documents)
• **Electronic** evidence (photos, text messages, videos)
• **Real** evidence (physical object)
• **Direct** or testimonial evidence (personal observation or experience)
• **Circumstantial** Evidence (not eyewitness, but compelling)
• **Hearsay** Evidence (statement made outside the hearing, but presented as important information)
• **Character** Evidence (generally of little value or relevance)
Weighing Evidence

• Weighing evidence means assessing the impact of the information

• The following factors impact the assessment:
  – Relevance
  – Reliability
  – Persuasiveness
  – Bias
Weighing Evidence: Impact Factors

• Relevance
  – Must relate to the incident at issue and be of sufficient value in the overall determination
  – Must be offered by an individual with actual knowledge of the event

• Irrelevant
  • Questions and information regarding the Complainant’s sexual history or sexual predisposition unless to prove
    – Someone else other than the Respondent committed the alleged misconduct
    – Consent between the parties
Weighing Evidence: Impact Factors

- **Reliability**
  - Information that can be trusted
  - Comes from individuals who are able to have assumed the role they claimed to have or those with actual training or experience to support their claim of expertise

- **Persuasiveness**
  - Induces others to believe through understanding; tries to convince
  - Must be believable, consistent, and establishes a dependable narrative
  - **Note**: be mindful of the rehearsed narrative
Weighing Evidence: Impact Factors

• **Bias**
  - Understand who the person is and their relationship to the parties and incident at issue
  - Bias can manifest in multiple ways:
    • Towards the parties
    • Towards the incident
    • Towards the process
Credibility

• “To assess credibility is to assess overall the extent to which you can rely on a witness’ testimony to be accurate and helpful in your understanding of the case”
  – Credible is not synonymous with the absolute truth
  – Memory errors do not necessarily destroy a witness’ credibility, nor does some evasion or misleading
  – Refrain from focusing on irrelevant inaccuracies and inconsistencies

• Potential Assessment Factors
  – Demeanor
  – Non-cooperation
  – Logic/Consistency
  – Corroborating evidence
Other Evidentiary Exclusions

• Legally privileged information is protected

• A party’s treatment records cannot be used without their voluntary, written consent

• Duplicative evidence may be deemed irrelevant

• If an individual does not submit to cross examination, at a Title IX hearing, their statements cannot be relied upon
Understanding Evidence Thresholds

- No Evidence
- Insufficient Evidence
- Preponderance of the Evidence
- Clear and Convincing
- Beyond a Reasonable Doubt
Determining Appropriate Sanctions

• “Must be made as a proportionate response to the violation.”
• Should prevent the recurrence of sexual misconduct
• Should remedy the effects of the sexual misconduct
Common Student Sanctions

- Warning
- Probation
- Loss of Privileges
- Counseling
- No Contact Directives
- Residence Hall Relocation, Suspension or Expulsion
- Limited Access to Campus
- Service Hours
- Online Education
- Alcohol & Drug Assessment and Counseling
- Discretionary Sanctions
- Suspension*
- Expulsion*

*Must be supported by substantial evidence at the hearing
Understanding Substantial Evidence

• Required to suspend or expel a student
• Panel MUST be able to clearly state what evidence exists that a reasonable person might accept to support their decision
Deliberations & Decision-Making

• Private deliberations with only the panelists
• Not required to make a unanimous decision
• Required to issue a written decision of findings
  – Summarize evidence supporting the decision
  – Explain the substantial evidence to support sanction of suspension or expulsion
The Written Decision §106.45(b)(7)

- Provided to both parties simultaneously must include:
  - The allegations
  - The procedural steps from the complaint through determination
  - Findings of fact supporting the determination
  - Determinations regarding responsibility, sanctions (and remedies) along with the supporting evidence and rationale
  - Information on the appeals process
Appeals

• Parties will continue to have both institutional level and Board level appeal opportunities

• Grounds for an appeal:
  – New information
  – Procedural Error
    • Ex. Bias or conflict of interest of Title IX personnel
  – Finding inconsistent with the weight of the information
Additional Considerations
Hearing Logistics

• At the request of either party, the parties must be permitted to be in separate rooms

• Hearings may be conducted in-person or via videoconferencing
  – As panelists you should be familiar with any technology utilized

• All directly related information will be available

• Institutions will establish rules of decorum which everyone is expected to adhere to

• All hearings must be recorded
**Things to Keep in Mind**

---

**Before the Hearing**

- Review all available materials:
  - Sexual Misconduct Policy
  - Investigative Report
  - Supplemental documentation

- Determine whether you are participating in a Title IX or Sexual Misconduct Hearing

- Prepare questions in advance

---

**During the Hearing**

- Be patient

- Listen

- Don’t draw conclusions until all evidence and testimony are presented

- Be mindful of the seriousness of the situation
The Investigative Report

- Summary of Allegations
- Identifies Applicable Policies and Procedures
- Statement and Explanation of the Evidentiary Standard
- Describe/Explain Evidence Obtained & Reviewed
- Investigative Findings
Retaliation §106.71

- **Who is protected**: Reporters, Complainants, Witnesses, Respondents, even those who choose to not participate

- **What is protected**: Intimidation, threats, coercion, discrimination
  - Ex. Charging individuals for code of conduct violations that arise out of the same facts or circumstances
  - Ex. Not keeping the identity of the Complainant, Respondent, or any witnesses confidential
Record Keeping §106.45(b)(10)

• 7-year records retention mandate:
  – Reports [supportive measures, why not deliberately indifferent and what measures taken to restore or preserve equal access]
  – Investigations [determinations, recording of hearing, sanctions and remedies implemented]
  – Appeals
  – Informal resolutions [results]
  – Training materials
